Mike,

I'll call you some time after 1:30PM today.

I've attached LDEQ's responses to EPA's comments on the 2016 TR and a version of the markup document which includes direct responses to each comment.

I am still working on a cleaned up version of WQ097 which will include all accepted edits EPA has recommended. I'll pass it along after it's finished.

Thanks,
Jamie

I have a noon call on Tuesday, all hands meeting Wed am at 9:30 and a call at 2:30 that afternoon. Other than that, I think I'm open.

Mike,

I'm aiming to have responses back to you early next week, probably Monday afternoon. I think everything was pretty straight forward in the comment letter and markup document, so there'll be no need for clarification.

I spoke to Russell about the USGS toxicity study while you were out. I can give you an update next week on it.

I know it's early for it, but I'd also like to discuss starting the next triennial and possible priorities for it. I saw that both our predecessors discussed different approaches to doing the TR and I kind of like Minnesota's approach. I've attached a presentation that I believe Melinda sent to Sandy whenever the 2016 TR kicked off.

Please let me know when a good time to call you next week will be.

Thanks,
Jamie

Hi Jamie,

Hope all is well there these days. Just thought I'd check in and see where things stand with respect to your review of our comments on the TR. Anything needing clarification from us?
